

I, Fateme Ghiasi, received a bachelor's degree from Zahedan University of Medical Sciences in 1994, a master's degree from University of Welfare and Rehabilitation Sciences in 1997, and a Ph.D in physiotherapy from Tehran University of Medical Sciences in 2013. I have been an assistance member of the School of Rehabilitation Sciences of Zahedan University of Medical Science since 2008.

I have been working as a research assistant in the School of Rehabilitation Sciences from 2017 to 2019 and as the head of the School of Rehabilitation Sciences since 2022. I have published 47 articles in the fields of neurology and musculoskeletal diseases. I have given 42 scientific lectures in internal and foreign congress. Finally, I taught in the fields of neurology, biomechanics, and therapeutic exercise. My interest trend is also Neuro-Rehabilitation science.
